DETAILED ACTION

1. Claims 1-47 are pending.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 10/25/07 was considered by the examiner.

Allowable Subject Matter

3. Claims 1-47 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter:
 5. WO 02/17048 to Lee discloses a portable handheld computing apparatus and acquiring means for acquiring a first and second integrity metric to determine if a computer is a trusted entity. Lee also discloses verifying the integrity of the boot process of the computer by calculating a digest of software or firmware before loading that software and comparing the digest with a value stored in a certificate provided by a trusted entity whose public key is known to the BIOS. However, the Lee reference fails to teach or suggest the limitations of claims 1-47. The Lee reference fails to teach or suggest "transmitting the collected environment information from said information processing apparatus to said first authentication apparatus and authenticating the environment information by said first authentication apparatus by judging whether or not the transmitted environment information is proper with reference to an environment information database, which stores environment conditions classified according to information to be transmitted and received, and the transmitted information; and

judging said information processing apparatus to be safe by said first authentication apparatus information authenticates performed in the step of authenticating the biological information, the step of authenticating the environment information, and the step of authenticating an electronic certificate are successful”.

6. WO 02/03178 to Ide disclose a user with assurance that a network computer is secure, typically before completion of the log in operation, wherein a host assessment of the workstation is done before requesting the user's credentials. However, the Ide reference fails to teach or disclose transmitting and electronic certificate issued in advance by said second authentication apparatus and information encrypted with a secret key issued by said second authentication apparatus from said information processing apparatus to said first authentication apparatus; authenticating the electronic certificate by said first authentication apparatus by decrypting the encrypted information with a public key acquired from the transmitted electronic certificate by using a public key acquired from said second authentication apparatus, and judging whether or not the decrypted information is proper; authenticating the environment information by said first authentication apparatus by judging whether or not the transmitted environment information is proper with reference to an environment information database, which stores environment conditions classified according to information to be transmitted and received, and the transmitted information; and judging said information processing apparatus to be safe by said first authentication apparatus when all the authentications performed in the step of authenticating the biological information, the step of

authenticating the environment information, and the step of authenticating an electronic certificate are successful.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
